Livestock Trailers

Take Stock.

Take it wherever you want with the Weberlane StockHolder series of livestock trailers. Our livestock trailers are exactly what you would expect from Weberlane, heavy duty construction and utility you just can't beat.

StockHolder

StockHolder livestock trailers are equipped with full swing door w/slider, mid trailer stock gate, and front escape door.

The rugged steel frame is protected in the front by a stainless steel apron to prevent corrosion from road spray and stone chips.

The heavy duty 68" rear door includes a handy slider and spring loaded latch for easy opening and closing to fit all your loading situations. A sturdy steel mid trailer stock gives you the shipping options you need. The front escape door is also constructed to provide you with years of trouble free service.

The rugged shock proof lights are wired in the frame for added protection and peace of mind.

So when you need to exercise your stock options, you need a Weberlane StockHolder livestock trailer.
